#### NOTICE OF ANNUAL MEETING

The Annual Meeting of Tasmanian Field Naturalists' Club  
will be held in the Royal Society's Room, Tasmanian Museum  
on Thursday, March 20th, at 7.45.p.m.

All official positions become vacant.

\*\*\*\*\*

Officials for 1974 were

President: Mr. A.M.Hewer.

Vice-Presidents; Mr. H.K.Aves; Mr. G. Van Munster

Secretary - vacant - M.J. Westbrook carrying on as  
committee member.

Treasurer: Miss D.N.Wise.

Auditor: Miss R. Warren.

Assistant Secretary - no nomination

Editor, Tasmanian Naturalist: Mr. D.G.Thomas.

Librarian: Mrs. McDonald.

Committee Members: Mr. F. King; Mr. M. Hurburnh;

Miss F.E.Warren; Mr. D.G.Thomas; M.J.Westbrook.

\*\*\*\*\*

The Annual meeting will be followed by the usual  
monthly meeting for March.

\*\*\*\*\*

#### Seating Arrangements

The easy chairs near the front are quite safe!  
Not all our speakers are practised in oratory and the art  
of throwing one's voice to the far limits of the room.  
It has been suggested that as many members as possible  
help the speakers by sitting near the front of the room.

\*\*\*\*\*

DEFINITIONS

These should be on the prescribed form and received by the Acting Secretary not later than  
Thursday, March 6th.

ONE:-

Do I hear a little whisper?

(Um! I don't think I'll go to the Annual Meeting - I might get roped in for a job!)

SO WHAT!

- ..If you are REALLY interested in Nature and love to get out;
- ..If you would like to encourage others to join with you and enjoy it together;
- ..If you think it is important for people to know more about the outdoors and get to love it and take care of it;

WHY NOT become involved?

A Club is not a one or two man band - a job shared among several is much easier for each.

WHY NOT volunteer to be a committee member - or even a Secretary? or an Assistant Secretary?

To become involved in the working of a Club can bring much interest and satisfaction to an individual.

Why not be willing to stand as President?

The aims of this club are more than just providing an evening's pleasant entertainment every third Thursday and an outing the following weekend.....

Club's Rule 2:-

The objects of the Club shall be the encouragement of the study of nature and the conservation of flora and fauna - these objects to be promoted by periodical meetings and excursions, the formation of a library and the publication of papers and proceedings when deemed advisable.

.....

.... Why not an article for "The Tasmanian Naturalist"?

\* \* \* \* \*

AS THE CAMP:-The Violet, Baldamana - Education Dept.'s Field Study Centre- Object (among others) - to make lists and collections of flora for the information of students attending Science Camps. Everything except meals and towels for 24. a day. Many birds about - lots of interesting bush- DO BE THERE!

Feb. 1975.

WARNING - MEMBERS WHOSE NAMES ARE ON THE LIST

Members whose names are on the list (and believe it or not, some are gone!) must have their names rechecked. Please do.

Make sure of your financial situation for 1975.

Owing to that well-known fact that the Committee has reluctantly decided to relocate the Club and although, among other things, the seat of the Social Society Room has 'gone up', we have no many others would be loth to leave our traditional and social meeting place where we have had the little for slides etc., and a safe place for our library.

\*\*\*\*\*

For those who are interested in AKS.

We have received 'Australian Nat Research News', 10. 13; Nov. 1974.

A study is being made of a fungus most commonly found in soils containing the manure of chickens, birds or BATS. The researchers need soil samples from caves, abandoned houses in rural areas, fowlyards, including chicken houses, and underneath or within hollows of trees used by birds for roosting - such sites could be found in suburban parks as well as rural areas.

The fungus causes, in humans, a lung disease similar to tuberculosis, and has been diagnosed in some cave explorers;

The article suggests certain procedures for the collection of soil samples.

Anyone interested could borrow the lower sheet from our Library.

We have, also, CORRIE Book Laws - introducing their Australian Naturalist Library - RISE TIME by Ian Bowley, Fish of the Ocean & Shore, by J.N. Thomson, and Living Insects, by R.D. Hughes. Out late in 1975 will be SANDR by B. Main and PROPS AND WARS by H.J. Tyler. Others will follow. We have, too, the Australia Party's literature on conservation policies etc.etc.

\*\*\*\*\*

Most of us are busy people with lots of calls on our time and our interest. Have you heard the little saying "If you want a job done, ask a person who is already busy"? Such a person MAKES time to do the job. It's enthusiasm that counts.
